

## SALT LAKE DAILY HERALD.

OGDEN CITY, UTAH.

SATURDAY November 9, 1899

## OGDEN DEPARTMENT.

The branch office of THE HERALD is in Reed & Snyder's iron building on Washington street, adjoining Boyle & Co's furniture store. Advertising rates will be made known upon application to the manager.

THE DAILY HERALD is for sale at all news stands and by all news boys, and is delivered by carrier in Ogden for 25 cents per week. No papers stopped until arrears are paid. Subscribers failing to receive papers promptly will confer a favor by notifying the branch office. Parties desiring papers stopped or addresses changed must notify the branch office.

R. A. LITTLE, Manager.

## The City in Brief.

The H. Grande Western train was reported five hours late last night.

Henry Peery telegraphs his father that he will reach home in about ten days.

A fruit car that had been east came back yesterday full of mail for San Francisco.

John A. Boyle and wife yesterday sold to Edward W. Michaux a lot in South Ogden for the sum of \$300.

The streets were almost deserted yesterday afternoon, but the country court room was comfortably filled with spectators.

The case of malignant diphtheria at the house of John Greenwell, reported in THE HERALD Friday morning, terminated fatally.

W. N. Shilling, who has been on a tour of observation to Oregon and Washington territory, has returned home and settled down to business.

The Kraly company, numbering thirty six persons, came up on a Rio Grande Western special train and went west yesterday afternoon.

The farmers are taking advantage of the fine weather to market their hay in large quantities. It is now selling for \$3 per ton and will likely go higher than that.

The new brick ice house now being built just north of the Union passenger station, will be 135 feet in length by thirty in width. Many thousands tons of ice will be stored in it.

Yesterday was a quiet day around police headquarters. Probably on account of the trials going on in the county court room before Commissioner Perrin, which drew a large audience.

Charlotte Thompson and her excellent company will give entertainments in Union square, house on the evenings of Thursday and Friday of next week. "East Lynne" will be produced on one night.

The ground room of the new First National bank building is 50x75 feet. Including the basement the building will be six stories in height. Work is now in progress on the third story above the basement.

Rails are being laid on the eastern end of the Pacific Short Line, where 120 miles of the grade has been completed. A contract for grading forty-five miles more has been let, and the money for doing the work is on hand.

The laying down of asphaltum sidewalks on lower Twenty-fifth street is steadily progressing. The asphaltum from Ventura county, California, is being used, and Mr. Potter, the proprietor, is superintending the work.

The snow is melting off the mountains except from the highest peaks and in the deep gorges and ravines, where the rays of the sun do not penetrate, but there is much more snow on the mountains now than at this time last year.

The probate judge yesterday heard the petition of James E. Bunting to be appointed administrator of the estate of Thomas H. Sullivan, deceased, and made the appointment. Mr. Bunting was also appointed appraiser of the estate and required to file a bond for \$1,250.

J. D. Nease, secretary of the Salt Lake Valley & Eastern Railway company, says that General Manager McLain, of the Pacific Short Line, will certainly be in Ogden very soon, and then it will be decided what more will be done on this end of the line during the winter.

A nice little game of chance was going on yesterday afternoon on Union square. It drew well and the slick operator gathered in plenty of dollars by selling Parker's Pacific pens and making the players at the same presents of envelopes containing currency—some of them—or worthless pieces of paper.

Yesterday, Bernard White bought of E. W. Egan, for \$7,750, a part of lot 2, block 22, plat A, 31 feet by 5 rods, and W. W. Barton also sold to Mr. White, 55 feet by 8 rods of the same lot for \$18,000. This property is on Twenty-fourth street, between Washington and Grant avenue, north side.

There appears to be no foundation for the rumor of an alliance between the Chicago, Milwaukee & St. Paul railroad company and the proposed Pacific Short Line. The Pacific Short Line will be an independent road, and its managers do not intend to accept the hostility of any one company by forming entangling alliances with any particular system.

The sanitary inspector is doing good work in addition to his salary, but he should not confine his work to the surface of the ground. The law empowers him to examine cesspools, drains, and premises generally, and if he searches diligently he will find many sinks of corruption and disease-breeding places that are covered up but are none the less dangerous. Ferret them out, Mr. Inspector.

C. J. Carvey, of the railroad contracting firm of Corvey Bros. & Company, and also a member of the Ogden city council, returned Thursday night from the scene of their work on the Grandditch. Mr. Carvey says that his firm now have 1,500 men at work along the line of the railroad, and want to employ all they can get. In order to carry out their contract they have found it necessary to import men from the east. About fifty or sixty men per day are being hired. One hundred and sixty Australians are on their way from Virginia and will be employed in tunnel work. Four hundred Swedes from Minneapolis have also been contracted for.

## First District Court.

In the case of H. Terres vs. William H. Ford et al., trial finished and taken under advisement by the court.

In the case of S. V. Frazier vs. Church of Jesus Christ of Latter-day Saints et al., order for judgment in favor of plaintiff. Court adjourned until this morning at 10 o'clock.

## Malaria.

literally means bad air. Poisonous germs arising from low, marshy land, or from decaying vegetable matter, are breathed into the lungs, taken up by the blood, and under the vital fluid is purified by the use of a good medicine like Hood's Sarsaparilla, the unfortunate victim is soon overpowered. Even in the more advanced cases, where the terrible fever prevails, this successful medicine has effected remarkable cures. Those who are exposed to malarial or other poisonous thins, keep the blood pure by taking Hood's Sarsaparilla.

## Epoch.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alternative and Tonic. If you are troubled with any disease of the Kidneys, Liver or Stomach, or long or short standing you will surely find relief by use of Electric Bitters. Sold at 50c and \$1 per bottle at A. C. Smith & Co's drug store.

Mrs. Cobb's manicure goods at Ross' pharmacy.

A FULL LINE OF JERSEY RUBBED underwear in white and cardinal, all sizes at 65 cents each. This is the most excellent line of children's underwear ever offered to the public. SIZES BOYS.

Middle & Sons, plumbers.

Children Cry for Pitcher's Castoria.
